Lora,

I think we sent that number to you. In any event it's Ex. 6 - Personal Privacy

Hi there Mike and Den

Hope things are going well for you this weekend. Den, how long are you staying?

We haven't heard from Gregory Grant yet. I am sure he has a ton going on. I was thinking it might be good to have Bob try meeting up with him. Do you have a phone # for him? Where does he work out of?

Thanks a million. Lora

Hi, Lieutenant Colonel Grant

Mike Dorsey at WV DEP and OSC Dennis Matlock from EPA told me they mentioned to you ATSDR/CDC's interest in obtaining a drinking water sampling summary for the Freedom Industries Charleston WV contamination concern. I know you are extremely busy, thank you for helping us with this data gap. We are desperately trying to get our hands on a spreadsheet containing a comprehensive summary of water testing results from the water treatment plant and distribution system that includes location info (including if possible any more up to date sampling past 1/15/14). We are really interested in a map depicting the sampling locations of current exceedances of the 1 ppm screening level. We've seen what is online on the utility's website and WV Homeland Security & EM website but it doesn't quite get us there. Do you have this kind of information you can

share with us? We need this information to continue to provide public health consultation to WV BPH as this continues.

My staff member, Bob Helverson ([gfu6@cdc.gov](mailto:gfu6@cdc.gov) or [helverson.robert@epa.gov](mailto:helverson.robert@epa.gov), 215-313-4788), will be arriving in Charleston later today and will be attached to the FEMA Federal Coordinating Officer at the State EOC for the next few days. He will be working with Steve Formanski of HHS. If Bob can help coordinate this information flow just let us know.

Thank you, very very much. Lora
